

## How to review *Bone Hash* by Skye Griffith

Dear readers, reviewing a book adds greatly to book sales and public interest. It helps potential readers know if your book is in a category they like to read and the reactions of similar readers. Reviews also give an author valuable feedback. Thank you for reviewing *Bone Hash* and know your time is greatly appreciated!

First, go to [Skye's website](#) for links to booksellers or use the text links provided below.

### [Barnes & Noble](#)

By far the easiest! On the right side under the title it says, "Write a review."

Click on the link and complete the form. EASY!

### [Amazon](#)

There are stars referring to my reviews right under the title and author name. Right under that are the number of reviews. Click on the NUMBER. On the far left under the ratings it says, "Write a customer review." Click on that and follow the prompts.

### **Other ways to review:**

### [Goodreads](#)

Goodreads is owned by Amazon and features reviews by readers. If you're a member, [go to this link](#). Sign in and search for *Bone Hash* if you aren't taken there directly. On the far left of the page under the picture of the cover is "rate this book" under the stars. Please click there.

### [BookBub](#)

I recommend Bookbub for their wonderful deals on books. They offer discounts daily on an interesting selection. Signing up is free and allows you to choose your reading categories. If interested, go to [bookbub.com](#). Sign up and then sort for *Bone Hash*. On the far right side click on the box that says "Review" and follow the prompts.

**Thank you for your reviews!**

**Best, Skye**
